Hi Chris,

I looked at the comment matrix and I think you pulled the relevant references from the matrix into the rationale. Based on one of Jayne's suggestion, I added a couple of additional references into the write-up. These were not among the references included in the matrix – is that copasetic? If you don't think they are a good fit just pull them out.

Take care,

Teresa

Subject: Draft Forestry Landslides Rationale

Hi Tech Team,

Please provide comments on the attached draft rationale for OR CZARA Add'l MMs for landslide prone areas. Thanks.
